Your site is well-built (health score 85/100), but one high-intent keyword opportunity is going to competitors. About 200 monthly searches exist for a service you offer—but your content isn't ranking for it yet. This represents an estimated **\$25K–\$45K in annual revenue at risk** (roughly 2–4 qualified leads per month that could be booked jobs). The fix is surgical: one content gap to close. After implementation, expect measurable ranking movement in 6–12 weeks as search engines re-crawl and re-index. By 90 days, you should see those recoverable leads flowing in.

PRIORITY 01

**CLOSE THE 1 HIGH-INTENT
KEYWORD CONTENT GAP**

One under-ranked keyword (≈ 200 monthly searches) has no dedicated, optimized content on your site. Competitors are capturing the searches and converting them to booked work. Creating a targeted piece—or optimizing an existing page—to answer this query intent will unlock the ranking opportunity. This single fix addresses the entire revenue leak.

No critical bugs detected in this crawl. Focus shifts to the on-page and content opportunities that follow.

COMPETITOR BENCHMARK

No live competitor data is connected, so there's no head-to-head to show. Scoring eunoiaconsulting.net against alike competitors means crawling and grading their sites and pulling live rankings — connect a keyword data source (DataForSEO) to benchmark on keyword overlap, traffic and average position.
